Quality Hunt: a hunt designed to provide a hunter with an opportunity to achieve one or more of the following: a potential harvest from a wider selection of buck deer, a pleasurable experience based on timing and length of hunt season, lower hunter density, and an increased opportunity for success.

Proposed Recommendation - Amend 19.31.13.12 to:

- designate specific January bow hunts (e.g., GMUs 2B, 30, 36 and 37) as opposed to all January bow hunts
- add the November bow hunt in Sugarite Canyon State Park
- add all hunts occurring on the Humphries/Rio Chama WMAs
- add all Private Land Deer Conservation Incentive Program hunts

19.31.3 NMAC Hunting and Fishing License Application

Proposed Recommendation - Amend 19.31.3.8 to:

- allow application by hunters who held 2009-2010 deer permits for 'Quality' hunts that are removed from 'Quality' designation
- exempt private land-only and youth-only deer hunts from the 'Quality' application restriction
- allow application by hunters who held deer or elk licenses for hunts designated as 'Quality' that were undersubscribed, issued through a fourth choice or secondary license sale
