## Findings required for rulemaking adoption.

**Findings MUST include:**

- Reasons for adopting rule, including any findings otherwise required by law of the agency, and a summary of any independent analysis done by the agency;
- Reasons for any change between the published proposed rule and the final rule; and
- Reasons for not accepting substantive arguments made through public comment.

The rulemaking was undertaken to repeal the Pronghorn License Allocation System 19.30.12 NMAC. There have been no changes between the published proposed rule and the final rule. This repeal is occurring in conjunction with filing a new rule for Pronghorn Antelope 19.31.15 NMAC, and the new language supersedes this rule. A wide array of public comments were submitted. To view these comments, please visit [www.wildlife.state.nm.us/commission/meeting-agendas/](http://www.wildlife.state.nm.us/commission/meeting-agendas/) and click on the Hearing Archive tab. It was not possible to incorporate all of the comments into the final rule as many of the comments were mutually exclusive. The resulting rule was based on what was best for the resource and overall hunter satisfaction.
