

DANGER/PELIGRO

DO NOT ENTER WATER/NO ENTRE AGUA

PESTICIDE APPLICATION

October 10, 2018 8:00 am to October 21, 2018 11:59 am

Whitewater Creek from the property boundary near the Catwalk National Recreation Trail parking lot to the headwaters including all tributaries except South Fork Whitewater Creek

Whitewater Creek and its tributaries on the Gila National Forest will be treated with CFT Legumine Fish Toxicant to remove non-native fish. Recreational access (e.g., wading, swimming, boating, fishing, etc.) within the treatment area is prohibited while rotenone is being applied. Do not swim or wade in treated water while placard is displayed. Do not consume dead fish from treated water. All areas within a 300 foot corridor on either side of the stream banks are closed in accordance with US Forest Service closure order.

WATER TREATED WITH CFT LEGUMINE AND PRENTOX ROTENONE FISH TOXICANT POWDER TO REMOVE FISH IS **NOT** HARMFUL TO HUMANS AND OTHER TERRESTRIAL ANIMALS.

HOWEVER:

- 1) DO NOT DISTURB ANY CONTAINER FOUND IN OR ALONG THE STREAM.**
- 2) DO NOT DRINK WATER FROM TREATMENT AREA**
- 3) FISH KILLS THOUGHT TO BE ASSOCIATED WITH THIS PISCICIDE TREATMENT CAN BE REPORTED TO NMDGF (505) 476-8055**

A cooperative effort by:

New Mexico Department of Game & Fish
United States Fish & Wildlife Service
Gila National Forest
