

## 2008-09 New Mexico Hunter Harvest Report Program Summary of Results--Furbearers

**Rick Winslow, Large Carnivore and Furbearer Biologist  
New Mexico Department of Game and Fish**

At the time of this report the mandatory furbearer license reporting reports were complete. 1,960 furbearer licenses were sold during the 2008-09 season and 1,178 license buyers responded to the mandatory harvest survey, which is a 60.1% response rate. Of the licenses purchased 34 were purchased by non-residents.

### Total Number of Each Species Trapped from report

Species	Number Trapped
beaver	83
muskkrat	25
nutria	0
red fox	82
swift fox	133
kit fox	120
Gray fox	4,178
Ringtail	229
Ermine	0
Long-tailed weasel	0
Badger	182
Bobcat	3,196
Raccoon	303
Coyote	4,524
Spotted skunk	16
Striped skunk	429
Hooded skunk	1
Hognose skunk	67
	13,590

- The number of bobcats harvested is derived from CITES tag reports and not the hunter harvest reporting system.

\*Estimated Sustainable Harvest Limits available from Furbearer Population Assessment and Harvest Management Matrix.
