## Elk Draw Licenses

Deadline to apply for elk draw licenses is March 17, 2021. Up to four hunters may apply per application for a public-land elk draw license. **Nonresidents are ineligible** for any hunts held exclusively on WMAs or any antlerless (A) elk draw licenses.

Successful applicants will be mailed an elk draw license/tag, unless the E-Tag option is chosen. The license includes a hunt code and description of the unit, sporting-arm type, season dates and bag limit. Tags include instructions for proper tagging.

### Fee Types for Elk Draw Licenses (see glossary, pages 123–125)

Resident and nonresident fees are listed on page 12.

S . . . Standard hunts.

Q . . . Quality hunt.

HD . . . High-demand hunt.

Q/HD . . . Quality and high-demand hunt combination.

If allotted a license in the draw that has a fee lower than that submitted when applying, the difference will be refunded. Each elk draw license is valid only for a specific hunt in a specific area and for the dates designated on the license issued.

## Fourth-Choice Elk Hunts

By selecting 4th-choice an applicant is indicating that she/he will accept an elk license for **any hunt** in a specific quadrant of the state. The 4th-choice assignment will always be for the same sporting-arm type as the 1st choice on the application.

Hunters should understand that success rates for 4th-choice hunts may be low, due to small and/or localized elk populations. Not all hunts are available in the 4th-choice hunt pool. **Hunters who apply for and receive a 4th-choice hunt will not receive a refund if dissatisfied with the hunt drawn.**

A hunter drawing a 4th-choice hunt could receive a license with an antlerless bag limit, even if his/her prior three choices were for mature bull licenses.

If applying for a 4th-choice hunt, applicants must select one of the four quadrants listed.

### Private-land Hunts

Private-land elk hunts are available in the primary, secondary and special elk management zones.

Participating primary- and special-elk-management-zone landowners and their contact information is available online: <http://www.wildlife.state.nm.us/hunting/maps/elk-private-lands/>

Private-land elk licenses may be purchased at NMDGF offices, license vendors, online or by telephone. Online and telephone purchases must be made at least 14 days prior to hunt start date to allow time for mailing. For assistance with this process please telephone: 1-888-248-6866.

**Primary Management Zone:** Areas within the state where elk management is focused and the number licenses are limited.

Private-land elk authorizations are issued in the primary management zone to landowners participating in the Elk Private Lands Use System (EPLUS). Authorizations can be bartered, sold

or traded. An authorization allows the holder to purchase a private-land elk license. To purchase a private-land elk license for the primary management zone a hunter must have an authorization number and hunt code from a landowner participating in the EPLUS program.

**Secondary Management Zone:** Areas not part of the primary or special management zone where no specific elk management goals are set. Private-land elk licenses in the secondary management zone are unlimited and available over the counter with a ranch code provided by a registered landowner (Written permission from the landowner while hunting is required for the license to be valid).

**Special Management Zone:** Areas not part of the primary management or secondary management zones where private-land elk authorizations are issued to private landowners by NMDGF on a ranch by ranch basis.

Private-land elk authorizations are issued in the special management zone to landowners participating in the Elk Private Lands Use System (EPLUS). Authorizations can be bartered, sold or traded. To purchase a private-land elk license for the special management zone a hunter must have an authorization number and hunt code from a landowner participating in the EPLUS program.

## **Obtaining Authorizations**

Hunters seeking private-land authorizations are encouraged to communicate clearly with landowners regarding conditions associated with the license purchased and any other special considerations. Hunters are further encouraged to obtain these communications in writing. Obtaining private-land elk authorizations is considered a private matter. NMDGF is not a party to these transactions or communications and is not responsible for resolving disputes.

Landowners participate voluntarily in private-land programs, and the courtesy each hunter exercises can affect future access for all hunters.

Hunters may not hold both a private-land elk license and a draw elk license in the same license year and may not exchange a draw license for a private-land license.

## **Ranch-only or Unit-wide Authorizations**

**Unit-wide:** A unit-wide authorization number allows a hunter to purchase an elk license valid on any legally accessible public lands, other unit-wide ranches, and other private land with written permission within the GMU. Unit-wide authorizations are only available in the primary management zone. Unit-wide maps will be available prior to the hunting seasons online: <http://www.wildlife.state.nm.us/hunting/maps/elk-private-lands/>.

**Ranch-only:** A ranch-only authorization number allows a hunter to purchase an elk license valid only on the private deeded acres of the designated ranch, except as otherwise allowed by rule. In GMUs 4, 5A, and in secondary and special management zones, ranch-only elk licenses may also be valid on other private lands, within the same GMU and management zone, with written permission. Ranch-only licenses are not valid on any public land.

It is not considered trespassing if a hunter is in possession of a landowner elk license that has been obtained from the owner or person in control of the land and which grants access to that particular private land for the purpose of lawfully taking elk (pages 25–26). However, in the secondary management zone written permission from the landowner is required for the elk hunter.

**Closed Areas:** Military reservations, national parks and monuments, state parks and monuments, recreation areas, national wildlife refuges, state wildlife management areas, and other locations may be closed or restrict hunting.
