## Wildlife Management Division

Nuisance Bear
Management and
Diversionary Feeding
Policy

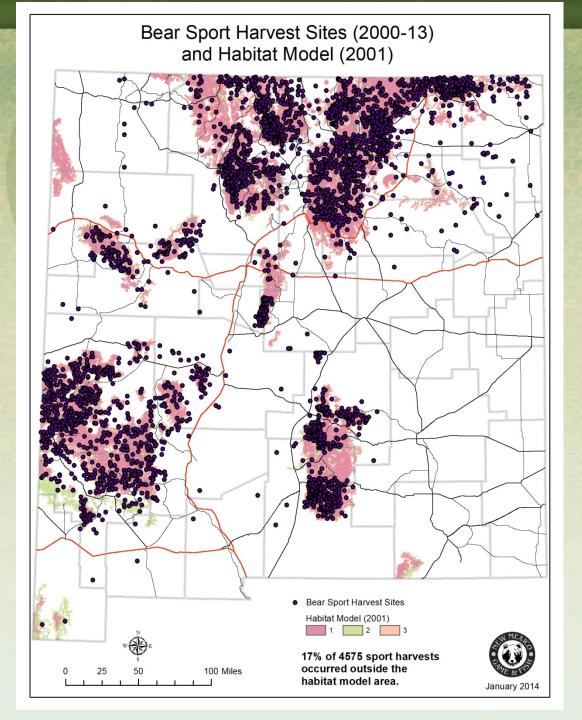

March 20, 2014
New Mexico State Game Commission Meeting
Las Cruces, NM

#### Black Bear Mortality Data from 2000-2014

Map of Bear Population and **Depredation** ? /Nuisance Mortality Locations

Map of Bear Population and Sport Harvest Locations

#### Negative Aspects of Diversionary Feeding

- US Forest Service prohibits the feeding of wildlife on Forest Service land in New Mexico
- Based on recent bear incidents in neighboring states, NMDGF could incur liability for any incident in which our actions alter natural bear behavior
- Nuisance bears are already feeding in human dominated landscapes

### Negative Aspects of Diversionary Feeding

- Habituates bears to human provided food
- There are no feeding locations that are away from the public
- Alters the natural bear reproduction cycle.

#### Questions?

# Nuisance Bear Management and Diversionary Feeding Policy

- Provides clear direction against feeding bears for any reason
- Is on AFWA's agenda to be adapted across the country and provinces
- Is adaptable to different management goals
